ENVOYS LEAVE PORTSMOUTH

MEMBERS OF MISSION GO TO NEW YORK

Witte Speaks to Cheering People at Boston—Envoys Welcomed to New York by Thousands of Persons.

Portsmouth, N. H., Sept. 6.—M. Witte and the Russian mission left on a special train for New York to day and members of the Japanese entourage who did not go with Baron Komura last night took their departure.

Oyster Bay, N. Y., Sept. 6.—Baron Komura and Minister Takahira, Japanese peace plenipotentiaries, it was announced to day, will lunch with the president next Saturday. The same evening Mr. Witte and Baron De Rosen will dine at Sagamore Hill.

Boston, Sept. 6.—Both Russian and Japanese envoys, together with members of their respective missions, left Boston to day in special trains bound for New York. Crowds had assembled at the station and as the trains passed out, enthusiastic demonstrations occurred. Witte responded to the cheers by appearing on the rear platform and making a brief speech. He gave expression to the pleasure which his journey had afforded him, his thanks at the cordiality of the greeting and his regret that he must leave so soon.

Komura, with several members of the Japanese mission, visited Harvard university during the day and was entertained at luncheon at the Colonial club in Cambridge. Members of the Harvard corporation and prominent Boston Japanese were present.

IN NEW YORK.

New York, Sept. 6.—Thousands of persons greeted the Russian peace envoys when they arrived at the Grand Central station this afternoon at 5:35. There was a great demonstration when they left the train and hurried to the Streets hotel, where they will remain while in the city.

Witte, accompanied by Rosen, walked from the train to the carriage and it was only through great efforts on the part of the police and secret service men that a passage way was cleared. Both envoys smiled and doffed their hats continually at the cheers of the crowds. The crowd became so great that the party was brought to a standstill and everyone wanted to shake hands with the two men. Both grasped many hands as they slowly made their way to the hotel.

THE JAPANESE.

The Japanese envoys arrived from Boston to night. Baron Kaneko, Japan's confidential representative here, with his secretaries and two score Japanese students was at the station to greet the envoys. Another great crowd was on hand to cheer the returning plenipotentiaries and secret service men, city detectives and a heavy guard of police had to make a way for the Japanese party. Komura walked alone, closely followed by Takahira. The party entered carriages and amid cheering were hurried to their hotel. The Russian envoys spent the evening quietly in their hotel. Saturday Witte and Rosen will lunch with the president at Oyster Bay. It is said Witte may make a flying trip to Washington Sunday, as he is especially anxious to see the capitol. Monday will be spent in this city and Tuesday the Russians will sail for home.

Private advices from Kishinev say street fighting continues there, rioters ransacking Jewish shops, killing and wounding many of the inmates. Over a score of soldiers have been killed.

Tiflis, Sept. 6.—A dispatch from Ellendzhopol says all inhabitants of the Armenian village of Mankend, district of Zanguesursk, have been massacred by Tartars. Other villages are surrounded by Tartars.

News from Baku is of the gloomiest character. Russian and Tartar warring factions now appear to be entirely beyond control. The streets of Baku are unsafe for inhabitants and troops are inadequate to restrain the anarchical tendencies of combatants in the surrounding region.

LAND DECISION

Muskogee, I. T., Sept. 6.—Judge Raymond of the United States circuit court to day decided the noted Beck-Brook case, involving the land allotments prior to 1900. Over half a million acres of lands are involved in the principal. Brook, white, married an Indian woman and one child was born to them. The wife and child received 100 acres of land each. Both died and Brook claimed the land of both, but the Indian law prohibited the alienation of land to whites. REACTION OF SENTIMENT

DISSATISFACTION IS BEING ALLAYED

Japanese Populace Less Turbulent Over Peace Terms Made With Russia—Entire Nation Disappointed at Outcome.

Tokio, Sept. 6.—(Delayed.)—Under a vigorous defense by conservative journals supporting the government and a fuller and better appreciation of the situation confronting the country public sentiment is showing some evidence of reaction. The argument that it is impossible for Japan to continue the body was merely for the purpose of securing indemnity is proving effective in allaying dissatisfaction. It is believed that when the government is free to explain fully the conditions of the settlement and logic appealing to their reaction of sentiment will largely increase.

The entire nation is keenly disappointed at the outcome. Nowhere throughout the empire has there been a step taken toward celebration of the conclusion of peace. Hatreds continue the campaign against the government, demanding punishment of those responsible for the compromise. The forthcoming diet is certain to be turbulent and it is predicted the Katsura government will be forced from office.

RIOTING.

Tokio, Sept. 6.—Rioting broke out here last night (Tuesday) in connection with dissatisfaction over the peace settlement. There were several clashes with the police and it is estimated two were killed and five hundred wounded. The rioting ceased at midnight. Police stations were the only property destroyed.

The Russians strongly resisted west of Chongtuyang, but were forced to retire at 11 o'clock. Another Japanese detachment defeated the Russians at Heinkinkasul and pursued them. Japanese casualties were one officer killed, five officers and sixty men wounded. The Russians left forty dead on the field."

FAVORABLE DAY

Work of Stamping Out Yellow Fever Goes on.

New Orleans, Sept. 6.—Fever report up to 3 p. m.:
New cases, 31.
Total to date, 2,112.
Deaths, 1.
Total deaths, 238.

To day's record was again a favorable one, with a diminished number of new cases and deaths only slightly above recent days. While new foci continue to appear, they are offset by elimination of foci from which there has been no secondary infection during the thirty days set as the minimum limit by the federal authorities.

WILL PUSH CHARGES.

Chicago, Sept. 6.—Sept. 15 has been selected as the day when the government will push the charges made recently against eighteen western railroads by members of the Interstate commerce commission. Omaha, Sept. 6.—During a fight between a man supposed to be Pat Crowe, the alleged kidnaper of Eddie Cudahy, and three policemen, just before midnight, Crowe and his companion emptied revolvers at the officers, wounding Patrolman Jackson. Crowe escaped, but officers are hunting him. The fight occurred in a saloon where Crowe and his companion were discovered by Jackson.

For several weeks a number of police have been searching for Crowe, who was known to be in the city. Jackson saw a man he believed to be Crowe and a companion in a saloon, and sending another officer to summon help followed the men as they left the saloon. Seeing they were being followed, the two emptied their revolvers at Jackson, one bullet breaking his leg. Other officers who arrived started in pursuit, sending a shower of bullets after the fugitives. The men, however, escaped and up to midnight had not been apprehended.

HURT THEIR BUSINESS

London, Sept. 6.—The Times' Wellington, New Zealand, correspondent says:

"Operations of the American harvest trust are seriously impeding prosperity of New Zealand implement makers. Manufacturers recognize that even a protective tariff of 20 per cent would be unavailing. A deputation to day asked the government to prevent the trust from doing business. The premier replying asked them if they wanted war with the United States, adding that he did not think that country would stand such prohibition or that the agricultural members would agree to a prohibitive tariff. He said, however, something might be done if local manufacturers would agree not to raise prices. The premier intimated the government would proceed with the monopolies prevention bill."

Washington, Sept. 6.—The Post says: "Judge William L. Penfield, collector of the state debt, has been selected by the president for a special mission to Europe, the character of which remains a profound secret at the state department."

MEET AND WED IN STREET.

Parkersburg, W. Va., Sept. 6.—Isaac Stuckey, a widower, 55 years old, and Myrtle Brown, aged 35, were married in the street here last night in an open spring wagon, after five minutes' courtship. Stuckey was driving to his home at Fountain Springs. Just outside the city he overtook Mrs. Brown. He asked her to ride and she climbed in. He proposed marriage on the spot, she accepted and the wagon was turned around. Cuntly Clerk Stout was at the court house, while Rev. A. T. Morrison was at hand. The obliging clerk handed the bridegroom his license and Rev. Mr. Morrison married the couple. Neither rose from the seat of the wagon.

RAILROADS ARE HEAVY LOSERS.

Port Worth, Texas, Sept. 6.—As a result of yellow fever in the south, southern railroads are heavy losers because of restricted passenger traffic. The Southern Pacific losses alone thus far \$500,000. The losses of other roads are not quite as heavy. It is computed that the southern roads' passenger receipts will be reduced several million dollars before the fever epidemic ends.

A LONG VOYAGE

Charleston, S. C., Sept. 6.—The British steamship Tropic, from Valparaiso, Chile, arrived here to day after a voyage lasting nearly three months. The second mate, purser and fifteen seamen are missing. While off Puta, fifteen miles from Conception, the ship went hard aground and over three hundred yards from the beach. High seas were running. GRAND ARMY MEN PARADE

FIFTEEN THOUSAND VET- ERANS PARTICIPATE

Procession Consumed Over Three Hours Passing Review- ing Stand—Business Meetings Will Begin to Day.

Denver, Sept. 6.—Three hours and five minutes were consumed by the Grand Army procession in passing the reviewing stand to day. It is estimated 15,000 Grand Army men participated in the parade. Kansas carried off the honors for the largest representation, having nearly 2,500 in line. The Colorado and Wyoming departments came next with 2,500; Illinois, Pennsylvania, Iowa, Ohio and Missouri had large delegations.

The only serious consequence of the strain of marching was the case of John Donaldson of St. Louis. He was stricken with an affection of the heart and was carried to a hospital in an ambulance. His recovery is very doubtful.

There were many interesting features connected with the parade, but perhaps the most impressive was the appearance of an ex-confederate soldier in the gray uniform of his fighting days. A great cheer rent the air as he stood alone in a carriage waving the stars and stripes and bowing to the multitude. This was repeated later when he appeared marching arm in arm with an aged veteran of the union army.

The announcement in the official program that the annual meeting of the Woman's Relief corps would begin to night was an error. Both the national encampment of the Grand Army and the annual meeting of the Woman's Relief corps will open to morrow.

Baxter attended the injuries.

For Stiff Joints.

For stiff joints passive motion is useful. A second person moves the joint in the same way that the patient would if he were able. The movements should always be very gentle at the outset. By persevering and increasing the time daily one may greatly improve the suppleness of a joint. It is also helpful to apply warm oil by means of a bandage and retain it for some hours.

Pimple in the Ear.

When there is a pimple in the ear passage mix one teaspoonful of glycerin with an equal quantity of hot water. Soak up some of this with a piece of cotton wool and place in the passage. A very strong solution of borie acid may be used instead of water for diluting the glycerin.

Last spring the citizens of Nauvoo were informed by a committee of Josephite Mormons that if proper arrangements could be made for the convenience and comfort of their hierarchy and a great number of members of the Reorganized church of Latter Day Saints, they would this year hold their general conference and Sunday school reunion at that place. Acting on this suggestion, about three hundred residents of the ancient Mormon capital have signed a petition inviting them to come to Nauvoo, assuring them that the city's gates would be open to them. The Lamonias saints, or Josephites, claim to be the true followers of Joseph Smith, their prophet, and are a quiet, industrious people. Their leader is Joseph Smith, of Lamonias, Iowa, oldest son of the prophet, who was killed by a mob at Carthage, Hancock county, June 27, 1844. They never practiced polygamy, and this is the feature that mainly distinguishes them from the Brighamites of Utah.

POLITICAL GOSSIP.

The Chicago Tribune—Senator Cullom is having trouble with his political managers. United States Marshall Charles P. Hitch of Edgar county and John Ames of Chicago are supposed to be general managers for the state, but William Lorimer is the actual commander in chief, and Hitch and Lorimer are not agreed on questions of policy.

There is serious trouble in Southern Illinois, where Dan Hogan of Pulaski county, clerk of the federal district court, and Internal Revenue Collector Walter Loudon of Perry county are handling the Cullom interests. The two "managers" in the last six years have got their wires crossed in such a way that southern Illinois now is full of perplexing questions for Cullom.

Both Hogan and Loudon were for Tanner against Cullom when the senator was re-elected the last time. Afterward Hogan worked for Hopkins, supported by Yates, and Loudon worked for Col. Frank O. Loudon against Yates. Now the two have switched around and are for Cullom against Deneen.

The voters they are expected to deliver have become bewildered by the exhibition of managerial ability to change front, and the efforts of the two to straighten out the trouble has only added to it, and the republicans of the district have been carrying the case to Cullom, declaring that they can't be delivered by these two particular managers.

Senator Cullom is in Springfield, where he is expected to stay until Oct. 5. The state fair opens on Sept. 30, and he will be in Springfield for most of the roundup of politicians. The situation has determined itself so far that the local republican organizations expect to fight Lorimer for control of Cook county. At the last conference of Deneen and Cullom this was the apparent situation. The senator covers the situation by saying the governor has perfect right to make his appointments as he sees fit and that there is nothing but the best of feeling between them.

State Chairman Roy O. West returned to Chicago yesterday from his week's outing with the governor. They visited three state institutions and the governor's former home at Lebanon. They inspected the insane asylum at Anna, and the asylum for insane convicts and the penitentiary at Chester. Recommendations for some changes in the methods were made, but the governor expressed himself as well satisfied with the excellence of the management.

Another bunch of state appointments is expected by the end of this week or the first of next, and it is said that the Lincoln park board will be announced then.

ANOTHER CONFEDERATE FLAG.

A beautiful silk confederate flag, though badly torn in places until it is almost in tatters, has been added to the collection in memorial hall. It was presented by Mrs. James Ham-baugh, who formerly resided in this city, and was in the possession of her husband when he died. It was captured at Bleckley, Ala., in 1865. Mr. Ham-baugh was a private in Co. B, 110th Illinois Infantry Volunteers, of which company his uncle, James H. Ham-baugh, was captain. Mr. Ham-baugh enlisted Aug. 2, 1862, at Versailles, Brown county, Ill.

The flag was the first flag adopted by the confederate states. It has three stripes, the upper and lower being red and the middle white, and a field of blue in the left hand corner with eleven stars. The lower strip extends the entire length of the flag.

This flag so closely resembled the United States flag that the confederate government afterward changed it to the battle flag, the well known stars and bars, consisting of a red

field, with blue bars crossed in the shape of a St. Andrew's cross, with white stars on the bars. For the national colors they used a white flag with the first flag in the field, but this looked at a distance like the white flag used in cases of parley, and a red stripe running down the edge of the right hand side of the flag was added. This was the last change made in the flag.

CHRISTENING SERVICE.

The residence of Rev. William McKendree McElfresh on Hardin avenue was blessed Wednesday with a delightful double function, social and religious. Mr. George W. Blair and his estimable wife, who is the only daughter of the venerable and beloved Dr. and Mrs. McElfresh, invited their pastor, Dr. W. H. Wilder and his wife, Dr. W. H. Musgrave and his wife, Mrs. A. L. T. Ewert and a few other friends to an afternoon dinner. After the sumptuous repast had been served, Marian McElfresh Blair was baptized by her grandfather, who was assisted in the ritual service by the ministers present.

The father of Dr. McElfresh was ordained by Bishop Asbury, the pioneer American bishop, and named his son after another great bishop, McKendree, who pronounced a blessing upon the young child who has now lived to see ripe and serene old age and to enjoy the dedication of his grandchild to the religion of his fathers. It was the occasion of a delightful social hour with these amiable people and the religious service was one of beauty and joyous pride.

BALL GAME AT NICHOLS PARK.

The interest in the game of baseball to be played at Nichols park Friday afternoon between a team from the Nichols Park Gun club and a team from Pisgah is great. The lineup has been announced as follows:

Gun club—H. Goebel, pitcher and second base; A. Abernathy, pitcher and second base; T. A. Chapin, first base; A. Tewsbury, catcher; A. Ransom, third base; H. E. Briggs, shortstop; George Riley, right fielder; Ed Scott, left fielder; S. L. Perry, center fielder; Ed Brown, W. T. Craig, T. J. Brennan and J. A. Groves, substitutes.

Pisgah—Fred Zeh, pitcher; Lloyd Magill, second base; William Harmon, first base; A. Gillis, catcher; Charles Craven, first base; Charles Magill, shortstop; Clifford Gillis, right fielder; Donald O'Neal, left fielder; Fred O'Neal, center fielder.

The game will be called at 2 o'clock and Dr. George Dismore has been secured for the difficult position of umpire.

The game will be played between the pavilion and the end of the street car line, so that it will be handy to all who wish to ride out and see it.

ART STUDENTS.

Pupils desiring competent art instruction will find the courses offered at Illinois college very attractive. A sketch class will be organized with the opening of the term and a special course for the teachers of the public schools is offered for Saturday mornings. Prospective students can arrange with Miss Wilhelmnia Coultas by calling at her residence, 124 Westminster street, or at the studio in Academy hall after Sept. 10.

"If women would spend more time at housework and less time at nonsense," says Mrs. Elizabeth Hunt, aged 105, of Brooklyn, "they'd be better off." If Mrs. Hunt could produce proof that women might keep young by doing housework the domestic problem would be quickly solved.

SAVE YOUR HEALTH

It is Worth Saving and Some Jacksonville People Know How to Save It.

There are some people who take their lives in their hands by continuing to neglect their kidneys, when they know these organs need help.

Sick kidneys are responsible for an immense amount of suffering and ill health, but there is no need to suffer or to remain in danger when all diseases and sufferings arising from sick kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

Here is the statement of one Jacksonville person who has reclaimed good health by the use of this remedy:

A. H. Coffman, of West Morgan street, dealer in second hand furniture and stoves, says: "Across my lotus just over those organs there was a heavy aching pain. I could not rest long, either sitting or lying, and in the morning I always felt more tired and depressed than when I went to bed. The pains became more persistent and the kidney secretions were highly colored and irregular; in fact my general health was run down. I tried different medicines, but remained the same. Seeing Doan's Kidney Pills highly recommended I got a box at Dr. H. Lee Hatch's drug store and used them. They worked like a charm, giving a healthy and natural action to the kidneys and relieved my back of distressing aches and pains."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

Two Dead as Result of Clinton Tragedy — McCaskrin Will Run as Independent Candidate for Congress.

CLINTON TRAGEDY.

Shortly after dark Tuesday night a wealthy young negro, Thomas Waters of Clinton, Ill., who is by trade a barber, armed with a double barrel shotgun, went to the home of John Girard, and walking up to a window in the house, discharged both barrels of the gun into the house. A large crowd was attracted by the shots and the scene of the shooting was soon alive with inquisitive persons, all anxious to learn the cause of the disturbance. Probably aided by the crowd, the negro made his escape, and has not yet been apprehended. On investigation it was found that as a result of the shooting Ledia Grant of Kenney had been instantly killed, and Mrs. Alexander Jackson, a daughter of John Girard, fatally injured. Both the women shot are white. For some time, it is said, Thomas Waters has been attempting to pay attention to Mrs. Jackson, and she would have nothing to do with him, and it is thought that for this reason it was that he sought her life. Young Waters is one of the wealthiest negroes in Clinton, his mother owning property valued at \$100,000. Mrs. Jackson, though white, is the widow of the late Alexander Jackson, colored, of Bloomington. Her husband was found dead three weeks ago in the rear of a barber shop in that city.

McCASKRIN WILL RUN.

G. W. McCaskrin, elected mayor of Rock Island last spring, after losing the legislative contest with S. A. Cooke, in the Thirty-third district, has announced his independent candidacy for congress in the Fourteenth district, to fill the vacancy caused by the death of B. F. Marsh.

BLOODHOUNDS CATCH BURGLARS.

The burglarizing of Kres' clothing store at LaHarpe is but one of a series of similar crimes taking place there recently. On the discovery of the robbery Gib Miller's bloodhounds were secured and run down Bob Steepleton and two companions near here. They were arrested and a considerable portion of the plunder was recovered.

GIRL IS IDENTIFIED.

The mysterious young woman, who was found Sunday afternoon in the roadside near Alta, Peoria county, crouching over a stick of wood and calling it "baby, baby," has been identified as Miss Elsie Quinlan, a school teacher of Smithfield, Fulton county, and a daughter of William Quinlan, a wealthy farmer and stock buyer. She left her home two weeks ago to go to Canton, where she was to meet a girl friend. Since that time nothing was heard from her until the sheriff discovered her identity and notified her parents. Now she came to be in Peoria or what is responsible for her condition is not yet apparent, as she is still unable to talk. Her parents say she has been given to periods of moodiness and depression.

TEN-CENT TRAGEDY.

In a dispute between Henry C. Link, a saloonkeeper, and John Trappe over 10 cents, Link was shot dead at Belleville and officers are searching for Trappe. The coroner's jury returned a verdict holding Trappe responsible for the killing.

"POLLY PRIMROSE" TO NIGHT.

"Polly Primrose," the central figure in the play of that name, which is to be at the opera house to night, makes war with her piano on the union preferences of her father's guest, while the rest of the household is plotting to aid Lee's descent on Washington; and after a lot of amusing vicissitudes goes to the altar to the stirring strains of the "Star Spangled Banner." A play that begins one way and ends another must needs be full of excitement and surprises and situations that arouse and entertain. "Polly Primrose" is a war story with all these elements in it, lived throughout by the wit and vivacity and finesse of the beautiful Polly herself. It has been performed with enormous success in every city in which it has been staged, and will undoubtedly attract a large audience here. Prices, 25c to \$1.

COMMENCEMENT EXERCISES

(CONTINUED FROM SECOND PAGE.)

of the fruit store of Peter Dominichina the last trace of home life disappeared and the square became the center of business. During the years of growth many things were happening which are not recorded in the histories. New and modern buildings were erected, banks were founded, mills and manufacturing plants were established and many miles of pavement laid. Places of amusement were opened and a well regulated police force was established which at the present time would be a credit to any city of 700 people. In the course of time a school of oratory was opened, known as the city council, which held its meetings semi-monthly and let its members free to speak upon any topics they might see fit. At the present time this school embraces some of the most noted orators of the day, such as the aldermen from the First, Second, Third and Fourth wards. These men are men of letters, men with a universal knowledge, but with a special aptitude for one particular branch. They are men who are upon such interesting topics as the surest and cheapest way of securing water for the city. So great, too, is the renown of Jacksonville that other cities are envious and wish to connect with us by means of the suburban lines. At the present time at least three lines are asking for franchises and the city council will on Monday settle the question we may rest assured that these lines will enter our boundaries not later than Friday.

In turning over the pages of history we find many incidents of interest, among them the fact that during the last six or seven years the same gentleman has held our highest office—that of mayor. We also notice that during these years the now famous question arose: Shall Jacksonville be an open or closed town? Personally, I am not in favor of anything being open, and therefore deem it wise to draw my account to a close.

Father Crowe then remarked that disappointment was one of the features of humanity's lot and the present occasion had its full share. The last morsel was the unavoidable absence of the valedictorian.

EDWARD J. FLEMING.

who was detained in Kansas City, but he added that there were others present who might help atone for the loss of the young gentleman, and he called upon

FATHER O'NEIL.

of Peoria, for some remarks. Of the reverend gentleman's excellent address a few thoughts only are practicable:

"I feel like the apostles on the mount of transfiguration. 'It is good to be here.' Every priest here may go home envious, for he has no such enterprise as this in his parish. We visitors do not know what it means to live in a place where such magnificent institutions as this are possessed. The average country pastor wishes in vain for some one to do the generous thing for him and sigh for the good time and pride which are the possession of the residents of this city. There is one man who would heartily appreciate such a grand work as this grand educational institution and that is one who lies on his death bed, Bishop Spalding, of Peoria. (Applause.) He has labored unceasingly for the higher education, has spoken in its behalf and contributed generously of his means for the purpose of carrying on and encouraging the work. This country belongs to the Catholics by right of discovery. The first man who reached its shores exalted the cross and left it to the present generation to make good the work for which such a grand foundation was laid. Such scenes as we are witnessing to day make the heart feel good. Our forefathers were hewers of wood and drawers of water, and when they came to this free land they felt it a privilege to be permitted to stay here even and labor unmolested. I have heard my father tell of seeing hundreds evicted from their homes in Ireland and dying by the roadside without food or shelter. Now the present generation must push to the front and labor for education. It does the heart of a priest good to see these young graduates who will go forth into the world and stand by the faith of the church. You should be like a flower, diffusing a sweet odor and benign influence wherever you go and do good to all with whom you come in contact. I feel you will honor the church and God and will strive to uphold the faith in church and state for the Catholic church stands for cleanliness in civil life (applause). The time is fast coming when our people will come rapidly to the front and you will become a force for good. I

trust the founding of this college will be heralded abroad and that others will be induced to follow such a good example and be inspired to work for the cause of religion. (Applause.)

Father Crowe spoke in complimentary language of the fine address and said in brief:

"These exercises which should have taken place last spring were postponed in order that they might be held in this building. I promised the first class that the high school course should be only three years and they held me to it. I wished very much to make it four years and hinted to them strongly to that effect but found in that case that hints didn't go, yet I am proud to say that these Latin pupils understand their work so well that I challenge any one present to ask them any sort of question off-hand in English and they will answer it in Latin. Great credit for the good work done by these pupils is due to Father Kormaz (applause) and to the Dominican sisters (applause), who have worked so efficiently in the conduct of the school. The pupils understand well what they have gone through in languages, mathematics, music and the rest and are entitled to their diplomas, and I earnestly hope they will continue on in the college. The more we know the less we know, or rather think we know. The higher we go the less satisfied we are with our attainments and the greater is our desire for more knowledge. I hope you will ever maintain a Christian spirit and be good Catholics. Sent the air about you with a sweet perfume of virtue and noble aspirations. The object of this institution is to give training in learning and the Catholic faith, and I hope you will be models of Christian deportment."

Diplomas were then presented to the class as follows, that of Mr. Fleming being laid aside for him: Anna Maria Buhre, John David Cain, Edward John Fleming, Anna Cecilia Harmon, Leona Bernardine How, Arthur Leo Kingsley, Margaret Barbara Schirz, Mary Alberta Sweeney and D. Scott Sweeney.

A goodly number of present showed the esteem in which the young people were held by their friends. The gifts were brought forward by the usher and presented by Father Crowe, and the exercises ended with "Our Father."

RED MEN HAVE PLANS.

Delaware Tribe No. 78, I. O. R. M., is preparing for a big celebration on the occasion of the third anniversary of their re-organization, which falls upon Oct. 6th. Since the eventful date which this celebration will commemorate, the order has made rapid strides in membership and influence, especially during the past year, and the future is anticipated with even greater expectations than formerly. Nothing but a grand time will satisfy the braves and the preparations will be made with that end in view. The matter of the celebration was discussed at the last meeting of the tribe, but the exact nature of the program was not determined. Several plans are being discussed; one involves having a burgo picnic and celebration at the fair grounds, Nichols park or some other place near by; or giving a big parade in the business districts of the city, followed by a banquet in the hall. In one particular, however, all agree—the celebration must be a big one.

WEDDING ANNIVERSARY.

The home of Charles Antreter, 828 East Farrell street, was the scene of a delightful gathering Monday, when Mr. and Mrs. Antreter celebrated their silver wedding anniversary. About 2 o'clock in the afternoon the guests began to arrive and at once proceeded to make themselves at home. During the afternoon, which was very pleasantly spent with amusements of various kinds, Mr. and Mrs. Antreter were presented with many handsome and useful silver presents, among which was a large silver tea set, presented by the fellow workers of Mr. Antreter at the car shops, where he has been employed for the past twelve years as a cabinet maker. Oliver J. Brough, foreman of the planing mill, in a few suitable words, made the presentation speech.

Another very beautiful present was a large silver crown received by Mrs. Antreter from her mother in Germany.

At 7 o'clock all present sat down to a sumptuous supper, after which the evening was pleasantly spent. The guests departed at a late hour, uniting in the hope that they will all be present at the golden anniversary of the host and hostess.

"THE HOOSIER GIRL."

At the opera house to-morrow night, "The Hoosier Girl," known as being the most delightful rural comedy, promises to score a local hit. It is said to be a great accession to the list of comedy successes, as the bright jollity of the farce creates no end of merriment. It has every reason for succeeding, for it is acted by a capital company, including the world-famed Kate Watson in the title role, and it is so distinctly novel in scheme and development that it furnishes what most people like best—a diversion from accepted standard. The plot is good and will keep you guessing. The incidents are immensely amusing, which makes it quite the breeziest offering for a long time.

RAILROAD NEWS NOTES

More Gossip About the Alton Air Line—New Method for Keeping Records of Baggage-men—Items of Interest—Shop Notes.

W. B. Causey, engineer of maintenance of way of the Alton, stated recently that the right of way problems, which had been delaying matters on the Air Line, were rapidly being adjusted and that he hoped that grading could commence speedily. If the grading can be started and a sufficient progress made before cold weather sets in, track laying may begin this fall despite the belief general during the past fortnight that the track laying would have to be abandoned until spring. The local officials have been displaying commendable activity in getting results and while somewhat disappointed over the delay due to the right of way and crossing complications, are very hopeful that the work will be given a satisfactory start this fall despite the contrary belief previously published. The crossing complications with the three roads to be passed are adjusted with the exception of the C., P. & St. L., and that is now up to the respective general managers with a likelihood of early settlement on an amicable basis.

—(c)—

The Alton officials have decided to place in effect a new system for keeping the records of the train baggage-men. Hereafter each baggage-man at the end of each trip must make out a statement showing, in addition to the usual report, the amount of excess baggage handled by him and also of all milk cans both empty and filled. These reports give a complete statement of the run and how much each car earned in the way of milk shipments and excess baggage. In the past the excess baggage collection each station baggage-man was turned over to the agent and the latter sent in periodical statements showing the

total. This system has been thought inaccurate and some errors were occasionally made. By the new system, there will be a double report, one from the baggage-man on the train and one from the agent. The milk business is growing so rapidly that it is essential that special attention be paid to the revenue. The new system will be given a thorough trial and will no doubt prove the success hoped for.

CAR LINE EXTENDED

Workmen Were Engaged on East State Street Wednesday—Only Small Piece of Track to Be Laid—Officials Non-Committal

L. E. Fisher, superintendent of the Illinois Traction company, was in the city Tuesday evening looking after the local interests of the company. There was a conference at the office of the company between local officials and Mr. Fisher, and bright and early Wednesday morning a gang of workmen began the work of building a part of the proposed East State street extension, namely, about forty feet of track from the center of the curve at the intersection of East State street and Illinois avenue, and extending to the first track of the C., P. & St. L. railroad crossing.

Mr. Fisher, when interviewed Tuesday evening, stated that his visit was purely of a routine nature, but the developments of Wednesday indicate that the conference held Tuesday evening must have resulted in unexpected developments. Speculation was rife in the neighborhood of the junction Wednesday as to the purpose of the extension. Local officials were reticent as to the reason for the extension, admitting, however, that at the present time the extension would not cross the railroad tracks.

Notwithstanding definite information could not be obtained, the opinion prevails that the extension is being constructed to prevent the Burlington railroad from laying their proposed track on Illinois avenue. With the extension constructed the plan of the Burlington could not be executed without effecting a crossing with the local electric line at the intersection of East State street and Illinois avenue. Without the car line extension it would be possible for the Burlington to cross East State street and run north on Illinois avenue on a parallel with the track of the street railway.

The excavation for the extension was completed Wednesday and the ties and rails will soon be in place. It may be that the laying of the extension is for the purpose of having a lever on one or more of the roads when the traction company desires to cross all of the tracks at the East State street crossing for the purpose of building their interurban line between this city and Springfield. The move is one that will doubtless involve other moves and counter moves and developments will be watched with interest.
